

# BRYAN HAD A BUSY DAY.

HE COULDN'T GIVE MANY HOURS TO THE COMING GREAT SPEECH.

Many politicians visit Lincoln to attend the Free Silver Convention. The meeting of the Lincoln Central Committee of the Free Silver Convention, which was held last night, was a very important one. It was attended by a large number of prominent politicians from all over the country. Mr. Bryan was present and gave a short speech. He was very much interested in the proceedings and took part in the discussion. The meeting was held in the Lincoln Hotel and was very well attended. The speakers were very able and the discussion was very interesting. Mr. Bryan's speech was very well received and he was very much applauded. # GOV. M'CORKLE TO LEAD THEM.

West Virginia sound-money Democrats to make a stand. HUNTINGTON, W. Va., July 30.—Judge H. C. Simms of Huntington will represent West Virginia at the Indianapolis sound-money national conference. This was decided at the sound-money conference at Wheeling today. The floods swept away the railroad track in the vicinity of Huntington, and the train, which was unable to proceed, was abandoned. It was accepted, however, that the Governor will lead in the fight against Bryan.

The belief is general that the voice of Postmaster-General Wilson will be heard for sound money. No one spoke for him directly, but there was no dissent from the statement made by a representative of the Eastern district, who declared that a letter from Wilson would be worth 10,000 votes.

The campaign will be made distinctly on sound-money lines. Whenever it is possible to meet a Republican antagonist on the stump he will be asked to divide his time with the sound-money Democratic speaker, and the Bryan speakers will be confronted at every point.

**MORE THAN 100 PERSONS INJURED.**  
**Terrible Results of the Explosion of a Powder Magazine in Hungary.**  
BUDAPEST, July 30.—A powder magazine at Budapest, capital of the county of Baranya, exploded this morning with fatal results. The shock of the explosion was terrific. The town was almost completely wrecked and other buildings were badly damaged.

More than a hundred persons were injured, and it is thought a large part of them will die. Some of the buildings near the magazine collapsed, and there is reason to believe that many of their inmates were buried in the ruins. The municipal authorities, aided by the military, are making every effort to clear the debris and rescue those who may be imprisoned beneath them.

The magazine was not far from the square in which the market is held. To-day was market day and the square was crowded with rustics when the explosion occurred. Among the injured are many of these country people.

**SANK HIS WAR SHIP.**  
**Fire Wrecking the Powder When the Commander Blew a Hole in Her.**  
ROME, July 30.—During a thunder storm lightning struck the coast defense ship Roma and set fire to her. The flames spread rapidly and her commander, seeing that they were approaching the powder magazine, gave orders to attach a torpedo to the hull of the vessel and blow her up.

When the small boat containing the crew was at a safe distance the torpedo was discharged, tearing a great hole in the hull and causing the Roma to quickly sink. Nobody was hurt.

The Roma was a central battery, wooden, single-crew, bark-rigged vessel of 5,370 tons. She was 281 feet long, 53 feet beam, and 24 feet mean draught of water. She was built at Genoa in 1865. Her engine was of 2,819 indicated horse power and she had a speed of 14 knots.

Her armament consisted of thirty-one large and magazine guns.

**ANARCHISTS WITHDRAW.**  
**At Last They Give the Socialists Peace and a Chance to Work.**  
LONDON, July 30.—The fourth day's session of the International Socialist Trades Congress, which is meeting in St. Martin's Lane, has this city, manager of the London Convention, has been characterized by the former proceedings and to transact a little business, the first of the session, aside from fighting over the question of the admission of anarchists as delegates.

The session to-day was presided over by Signor Ferri, an Italian delegate. After a little mismanaged discussion of the question of the admission of anarchists, the session proceeded to the discussion of the Agrarian question. M. Van der Veld, a Belgian delegate, read a paper on behalf of the Socialists, in which he declared that the only solution of the agrarian question lay in the hands of the Socialists. He declared that the only solution of the agrarian question lay in the hands of the Socialists. He declared that the only solution of the agrarian question lay in the hands of the Socialists.

The session continued that it was the first duty of the Socialists to organize the agricultural workers. The session was very interesting and the discussion was very able. The session was very interesting and the discussion was very able. The session was very interesting and the discussion was very able.

**JAMESON AND HIS COMRADES.**  
**They Will Be Treated as Prisoners.**  
LONDON, July 30.—The unofficial report that Sir Matthew White Ridley, the Home Secretary, had ordered that Mr. Jameson and the other Transvaal prisoners should be treated as first-class misdemeanants turns out to be an instance of misapprehension. The Home Secretary has ordered that the prisoners should be treated as ordinary prisoners.

Mr. Matthew said that the Court alone had the power to order the prisoners to be treated as first-class misdemeanants. No such order had been issued by the Court, and hence the convicted men would be treated as ordinary prisoners. In response to a further question Mr. Matthew said that the Court had decided whether the royal prerogative would be exercised and an order issued to the effect of the Queen for the treatment of the prisoners as first-class misdemeanants.

The preliminary step for an inquiry into the administration of the British South Africa Company was then taken by Mr. Chamberlain. In the House of Commons today Mr. Chamberlain announced that he had appointed a committee of fifteen members of the House to conduct the inquiry.

**Loose Chief Justice Russell Commits.**  
LONDON, July 30.—Lord Russell of Killowen, Chief Justice of England, who is to visit America, and his party will sail for New York on the steamer Umbria on Aug. 5.

**Burglars Chased Away.**  
Two burglars cut a big hole after midnight last night in the windows of John Edgely's shop in the Strand. The burglars were chased away by the police.

**Lehmmer Thwarted by Dr. Bying.**  
The condition of Michael Lehmmer, who was shot on Tuesday by John Edgely, was reported at the St. George Hospital last night as being very serious. He was delirious, and the doctors thought that he would probably not survive the night.

**Secretary Herbert Goes Home to Vote.**  
WASHINGTON, July 30.—Secretary Herbert left to-night to vote in the Alabama State election next Tuesday. He will stop in Birmingham on Tuesday night and go to Montgomery on Wednesday morning. He will return immediately after voting for Johnson, the Republican nominee for Governor, but will not support the Alabama Populist ticket.

**Democracy Preparing to Turn Hard for the Great Task.**  
St. Louis, July 30.—The Executive Committee of the sound-money Democrats of St. Louis held a meeting yesterday. The Correspondence Committee was directed to request L. C. Cranston of Kansas City, who was present at the Chicago conference of the Executive Committee of the sound-money Democrats, to call a State Convention, naming the time and place. The Correspondence Committee was also directed to correspond with sound-money Democrats throughout the State, urging them to arrange for the selection of delegates to the State Convention.

# POLICEMAN KILLS A THIEF.

SHOTS HIM DOWN AS HE IS TRYING TO ESCAPE.

The fugitive a son of the Oak Street Station Barber, a Youth Who Was Police Officer, Killed and Escaped. It cost a life. Police Officer Thomas A. Myers of the Oak street station, who had occurred on his beat in the course of a week. Yesterday morning he shot dead the youth who is now known to have been responsible for the robberies. Had he delayed a second, or if his aim been less accurate, he would probably in the course of a few hours have been in peaceful conversation with the youth who now lies dead from his bullet.

The dead boy was 18-year-old Frank Wollweber, and although on his body the most positive evidence of his guilt was found, which Myers was chasing him. Little he was a long time before many people in the Fourth ward believed was an honest, industrious, and promising young man. He was shooting his friend when he pulled his trigger. He didn't find it out until he beat over the prostrate body and saw the well-known face. Then he broke down and sobbed like a child, and the other bluecoats who came running up, attracted by the report of the pistol, estimated that he was a good-natured fellow. He called him Tom in the Oak street station, and sometimes Softy, too, because of his tender heart.

Because of his tender heart, he was worried a great deal by the fact that he was a thief. He was a good-natured fellow. He called him Tom in the Oak street station, and sometimes Softy, too, because of his tender heart.

Police Officer Myers is a six footer, of corresponding size, and like most big men he is a good-natured fellow. He called him Tom in the Oak street station, and sometimes Softy, too, because of his tender heart.

# Baking Powder

ABSOLUTELY PURE

The elevated road, causing horses to rear up on their hind legs and drivers to swear. "Stop him! stop him!" yelled Myers, who was frantic at the possibility of the fugitive escaping. "Stop him yourself!" yelled a driver at the elevated road, causing horses to rear up on their hind legs and drivers to swear.

For three minutes the pair dodged around the city and back to the station at Fort Lee. The air tank and sand boxes take up no room in the inside of the car. Everything that helps to keep the car in motion is stored underneath. The new motive power is much cheaper than either the trolley or the cable. Its inventor claims, costing about ten cents a mile for each car, and enough air forced into the tanks of one car to run it fifteen miles. The American Power Company built the

in case there should be any hitch in the works in the new motor. The trial was satisfactory to the railroad officials, and inventor Hardie expressed himself as satisfied with the first run. Two cars were run over the road last night to give the newspaper men a chance to see how the new motor worked. The cars ran across the city and back to the station at Fort Lee. The air tank and sand boxes take up no room in the inside of the car. Everything that helps to keep the car in motion is stored underneath.

**GIVING GUNS FOR CUBA.**  
**Many Hundreds of Rifle Makers Give the Price of a Rifle Apiece.**  
JACKSONVILLE, Fla., July 30.—Gonzalo de Quesada, Secretary of the Cuban Junta, and Benjamin Guerra, Treasurer, arrived in this city this morning from Tampa.

They at once went to El Modelo cigar factory, where they petitioned the Cuban cigar makers to contribute the price of a rifle apiece toward the freeing of Cuba. Their speeches were greeted with cheers, and every cigar maker in the factory promptly offered his willingness to give a gun. In Tampa and Key West these gentlemen succeeded in raising 3,000 rifles.

**PLOT OF CUBAN PRISONERS.**  
**Strayed by the Lord Talk of a Woman.**  
MADRID, July 30.—The Havana correspondent of the Imperial telegraph further details of the attempted rising among the political prisoners confined on the Isle of Pines. It is almost certain that the plot would have been successfully carried out had it not been for the intervention of a woman through her anxiety for her family.

Since the outbreak of the insurrection a great number of persons who were known to be supporters of the insurgents or who were suspected of secretly aiding them have been transported to the Isle of Pines, which lies some fifty miles from the western coast of Cuba. Among the prisoners are a number of women, who, it is learned, took an active part in the conspiracy. The prisoners are nominally confined in the inland cities of Nueva Gerona and Santa Fé, the capital, but they have had more or less liberty according to the nature of their offenses, strong military guards being employed to prevent the prisoners leaving the cities and attempting to reach the shore of the island.

It appears that some of the more desperate of the Cubans in Santa Fé concluded that if all the prisoners combined they would be able to overcome their guards and make their way to the shore. The plan was to seize the arms of the troops while the latter were at church and then make their way to the coast, where they intended to land and make their way to Havana.

Another detail of the plan was to seize Col. Canales, who had been a great favorite of the Cuban patriots, and to use him as a bargaining chip. The plan was to seize the arms of the troops while the latter were at church and then make their way to the coast, where they intended to land and make their way to Havana.

The soldiers immediately informed the Governor of the plot, and the troops were alerted. The soldiers immediately informed the Governor of the plot, and the troops were alerted. The soldiers immediately informed the Governor of the plot, and the troops were alerted.

# AIR MOTOR CARS ON TRIAL.

Successfully Run Over the 125th Street Branch of the Third Avenue Road.

Compressed air was the motive power that propelled two surface cars from Fort Lee ferry to the Harlem River last night over the 125th street branch of the Third Avenue Railroad. It was the third time cars had been run from river to river to test the fitness of the Hardie compressed air motor.

The first trial was made at an early hour yesterday morning, that time being selected because traffic was then light and there were no cars running as to avoid danger of a block-

in case there should be any hitch in the works in the new motor. The trial was satisfactory to the railroad officials, and inventor Hardie expressed himself as satisfied with the first run. Two cars were run over the road last night to give the newspaper men a chance to see how the new motor worked. The cars ran across the city and back to the station at Fort Lee. The air tank and sand boxes take up no room in the inside of the car. Everything that helps to keep the car in motion is stored underneath.
